

Enerflex Ltd. and Exterran Corporation to Combine, Creating a Premier Integrated Global Provider of Energy Infrastructure

CALGARY, AB and HOUSTON, TX, January 24, 2022 – Enerflex Ltd. (“Enerflex” or the “Company”) (TSX: EFX) and Exterran Corporation (“Exterran”) (NYSE:EXTN) today announced a business combination (the “Transaction”) to create a premier integrated global provider of energy infrastructure. The company will operate as Enerflex Ltd. and will remain headquartered in Calgary, Alberta, Canada. Through greater scale and efficiencies, the transaction will strengthen Enerflex’s ability to serve customers in key natural gas, water, and energy transition markets, while enhancing shareholder value through sustainable improvements in profitability and cash flow generation.

The companies will combine in an all-share transaction pursuant to which Enerflex will acquire all of the outstanding common stock of Exterran on the basis of 1.021 Enerflex common shares for each outstanding share of common stock of Exterran, resulting in approximately 124 million Enerflex common shares outstanding upon closing, representing an implied combined enterprise value of approximately US\$1.5 billion. The transaction value for Exterran is approximately US\$735 million, which represents an 18% premium to Exterran’s enterprise value as at January 21, 2022. The transaction value paid for Exterran implies an EV/2022E Adjusted EBITDA of 3.6x and Price/2022E Cash Flow of 1.9x, including synergies, respectively. Upon closing of the Transaction, Enerflex and Exterran shareholders will respectively own approximately 72.5% and 27.5% of the total Enerflex common shares outstanding. Enerflex will continue to trade on the Toronto Stock Exchange (“TSX”) and intends to apply to either the New York Stock Exchange (the “NYSE”) or the NASDAQ exchange (“NASDAQ”) for the listing of Enerflex common shares to be effective upon Transaction close.

“This is an exciting day in the history of our companies. The Transaction is immediately accretive to shareholders; enhances our presence, offerings, and scale across our regions; and importantly, executes upon our years-long strategic goal of increasing recurring revenues to improve the profitability and resiliency of our platform,” said Marc Rossiter, Enerflex’s President and Chief Executive Officer. “Enerflex and Exterran each have a long history of global expertise in the delivery of modular energy solutions. Together, we are more efficient and better positioned in global capital markets. The Transaction will improve our ability to partner with an expanded set of customers to solve their growing energy infrastructure challenges with integrity, creativity, commitment, and success.”

“We are excited about the ability to create shareholder value through this Transaction and improving our product and service offering. The scale and efficiencies this combination brings is the right path for Exterran and brings significant opportunities for accelerated growth in produced water treatment and energy transition products and services,” said Andrew Way, President and Chief Executive Officer of Exterran.

Strategic Rationale

- **Creates a Premier Integrated Global Provider of Energy Infrastructure:**
 - Highly complementary product lines, geographies, and asset bases provide enhanced scale, efficiencies, and expanded offerings for customers.
 - The pro forma geographic exposure will be well-balanced with approximately 25-35% of revenues from each of North America, the Middle East, and Latin America.
- **Accelerates Growth of Gross Margin from Recurring Segments:**
 - Combination significantly accelerates the generation of predictable, recurring gross margin from energy infrastructure and after-market services platforms.
 - Over 70% of the combined entity's gross margin will derive from recurring sources, strengthening its margin profile and reducing cyclicality.
- **Improved Operational Efficiencies:**
 - Expect to realize at least US\$40 million of annual run-rate synergies within 12 to 18 months after closing through overhead savings and operating efficiencies.
- **Accretive to Shareholders:**
 - Expected to approximately double Adjusted EBITDA and be over 50% accretive to cash flow per share and approximately 50% accretive to earnings per share (subject to purchase price allocation to be determined upon closing), for Enerflex shareholders.
 - Enhanced scale with pro forma 2023E Adjusted EBITDA of US\$360 million to 400 million, inclusive of synergies.
 - Meaningful excess free cash flow beginning in 2023 that supports debt reduction, shareholder returns, and continued growth.
 - After close, Enerflex expects to maintain its quarterly dividend of CAD\$0.025 per common share.
- **Transaction Benefits From a Long-Term, Stable Capital Structure:**
 - The combined entity will benefit from a capital structure that provides ample liquidity.
 - In conjunction with the Transaction, Enerflex has entered into a binding agreement with the Royal Bank of Canada to provide Enerflex with a fully committed financing consisting of a US\$600 million 3-year revolving credit facility and a US\$925 million 5-year bridge loan facility. The bridge loan will provide financing to backstop an anticipated issuance of new debt securities prior to closing of the Transaction. The committed financing is sufficient to fully repay existing Enerflex and Exterran notes and revolving credit facilities and support putting in place a new capital structure, provide for capital expenditures and other ordinary course capital needs, and provide significant liquidity for the pro forma business.
 - The new revolving credit facility will be subject to a bank-adjusted total net debt to EBITDA covenant of 4.5x, stepping down to 4.0x by the fourth quarter of 2023.
 - Enerflex targets a bank-adjusted net debt to EBITDA ratio of 2.5x—3.0x within 12 to 18 months of closing.
 - Following capital project commitments in 2022, the combined entity's capital allocation in 2023 onwards will prioritize: (i) balance sheet strength; (ii) sustainable shareholder returns; and (iii) disciplined growth focused on full-cycle earnings.
- **Commitment to Sustainability:**
 - Aligns strong cultures emphasizing the health and safety of our global workforce and corporate citizenship.

- Global coverage enhances the ability to deliver sustainable natural gas, water, and energy transition solutions, including carbon capture utilization and sequestration, biofuels (including renewable natural gas), produced water reuse and recycling, and electrification.

Governance and Leadership

One Exterran director will be appointed to Enerflex's Board of Directors at closing. Mr. Marc Rossiter will continue to serve as Enerflex's President and Chief Executive Officer and a member of the Board of Directors of Enerflex and will oversee all aspects of integration. Mr. Sanjay Bishnoi will continue to serve as Enerflex's Chief Financial Officer. Enerflex's Executive Management Team will continue to serve in their current roles.

Timing and Approvals

The Transaction is expected to close in the second or third quarter of 2022, subject to, among other things: the approval of the Transaction by Exterran stockholders; the approval by Enerflex shareholders of the issuance of Enerflex common shares pursuant to TSX requirements in connection with the Transaction; regulatory approvals; and other customary closing conditions, including those of the TSX and the NYSE or NASDAQ, as applicable.

Copies of the Transaction agreement and related materials will be filed by Enerflex with the Canadian securities regulators and will be available for viewing under Enerflex's profile on www.sedar.com. Enerflex shareholders are urged to read the information circular once available as it will contain important information concerning the Transaction.

Support for the Transaction

The Boards of Directors of Enerflex and Exterran have each unanimously approved the Transaction and recommend that their respective shareholders vote in favour of the Transaction.

All of the funds managed by Chai Trust Company, LLC that own common stock of Exterran and all of Exterran's directors and officers have entered into voting agreements with Enerflex pursuant to which they have agreed to vote their respective shares in favour of the Transaction at the meeting of Exterran shareholders.

All of the directors and officers of Enerflex have entered into voting agreements with Exterran pursuant to which they have agreed to vote their respective Enerflex common shares in favour of the issuance of Enerflex common shares pursuant to the Transaction at the meeting of Enerflex shareholders.

Operational Update – Enerflex

“The timing is right for this Transaction as it strengthens our positioning while global energy markets recover from the pandemic-induced lows. Natural gas is a transition fuel that, together with renewables, will lead the world toward a lower carbon future. The world’s continued reliance on natural gas is evidenced by strong fourth quarter 2021 Engineered Systems bookings of over CAD\$300 million, our highest bookings quarter since 2018,” said Rossiter. “This month, we also successfully commissioned a gas infrastructure facility in the Middle East that will further strengthen our asset ownership portfolio. The recovery remains widespread, and we are optimistic that overall market strength will continue in 2022.”

Operational Update – Exterran

“We expect fourth quarter results to be in-line with our guidance provided on our third quarter call. Net debt and cash flow for the fourth quarter were favorable to our forecast, putting us in a good position as we enter the new year. The macro environment continues to be supportive of strong bookings in the first half of 2022,” said Way. “We continue to execute well on our two water ECO projects along with the large processing facility in the Middle East, all of which are expected to commence operations on time.”

Non-IFRS Measures and Other Financial Information:

Financial measures in this press release do not have a standardized meaning as prescribed by generally accepted accounting principles in Canada, which are International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board. These non-IFRS measures include Adjusted EBITDA, net debt and free cash flow. These non-IFRS measures may not be comparable to similar measures presented by other issuers. These measures have been described and presented in order to provide shareholders, potential investors and analysts with additional measures for assessing the performance of Enerflex, Exterran and, where applicable, the pro forma expectations of the combined entity, as applicable, and should not be considered in isolation or as a substitute for measures prepared in accordance with IFRS.

Adjusted EBITDA is a non-IFRS measure defined as net earnings or loss before finance costs, taxes, depreciation, depletion, amortization, non-cash impairments or impairment reversals on non-current assets, unrealized gains or losses on mark to market commodity transactions, equity-settled share-based compensation, and certain items that are considered unique in nature, including restructuring costs and Transaction costs. Management of Enerflex and Exterran believe that Adjusted EBITDA is a useful supplemental measure to evaluate the results of each issuer's principal business activities prior to consideration of how those activities are financed and the impacts of foreign exchange, taxation, depreciation, depletion and amortization, and other non-cash charges that add volatility to financial results (such as impairment expenses, share-based compensation, and other transactions that are unique in nature). A quantitative reconciliation of this non-IFRS measure is incorporated by reference herein and can be found on page 3 under the heading "Adjusted EBITDA" of Enerflex's Management's Discussion and Analysis for the three and nine months ended September 30, 2021 and 2020, which is available under Enerflex's profile at www.sedar.com.

Net debt is a non-IFRS measure defined as short- and long-term debt less cash and cash equivalents. Net debt is a commonly used non-IFRS measures to assess overall indebtedness and capital structure. Net debt is a non-IFRS measure to assess overall indebtedness and capital structure. See page 15 under the heading "Non-IFRS Measures" of Enerflex's Management's Discussion and Analysis for the three and nine months ended September 30, 2021 and 2020, which is available under Enerflex's profile at www.sedar.com.

Free cash flow is a non-IFRS measure defined as cash from operating activities in a period adjusted for changes in non-cash working capital, non-cash items (including interest expense and current tax expense), and non-normal course inflows (including proceeds on the disposition of property, plant and equipment ("PP&E") and rental equipment), less cash items (interest paid, cash taxes paid, work-in-progress related to finance leases, additions to PP&E, maintenance capital expenditures, growth capital expenditures, and dividends) and non-normal course outflows. Free cash flow is a non-IFRS measure used in to assist in measuring a company's ability to finance its capital programs and meet its financial obligations. A quantitative reconciliation of this non-IFRS measure is incorporated by reference herein and can be found on page 16 under the heading "Free Cash Flow" of Enerflex's Management's Discussion and Analysis for the three and nine months ended September 30, 2021 and 2020, which is available under Enerflex's profile at www.sedar.com.
